FTS Begins Migration of IT System

FTS is replacing the IT Solutions Legacy System with a new ITSS Integrated System, which is the first step towards a more comprehensive system to serve our clients and industry partners. The Kansas City office will migrate to the new system January 15-20, 2003. We will have limited processing capabilities during the 6-day migration, with only urgent orders processed during this time period. Please anticipate the possibility of some limited system processing capabilities after January 20. If you have any further systems conversion questions, please call Claire Allman at (816) 823-2963 or your Customer Service Representative.

The ITSS Integrated Systems rollout schedule for the remaining GSA regions is:

Region 6 (Kansas City)	January 15 - January 20, 2003
Region 5 (Chicago)	January 29 – February 3, 2003
Region 4 (Atlanta)	February 5 - February 10, 2003
Region 11 (Washington, DC)	February 12 - February 17, 2003
Region 9 (San Francisco)	February 19 - February 24, 2003
